#### **Composition-9:**

Write a short composition on ‘A birthday party you enjoyed’ answering the following questions:

- # What is a birthday party?
- # How did you decorate the house?
- # What were the items of food?
- # Who were present on the occasion?
- # What gifts did your parents and friends give you?
- # How did you enjoy?

A birthday party is usually an occasion for rejoicing and feasting. Relatives and friends gather on this occasion and wish many happy returns of the day and offer their blessings. They bring with them special presents.

My birthday was last Monday. I was busy all day long. I cleaned the house well and decorated the house nicely. The house wore a festive look. My parents ordered a birthday cake. My father bought a fine new dress and my mother was going to give me a pleasant surprise. I didn't know what it was. Different items of foods were decorated on the table. I was waiting eagerly for my friend's arrival wearing my new dress.

By 4 o'clock everybody arrived. We all stood around the dinning table. I merrily cut the birthday cake in middle of the song 'Happy Birthday to You'. Dishes full of delicious food items were served to the guests. The entertainment was accompanied by a lot of talking and giggling. After the meal we enjoyed a short cultural program .The camera of my brother was clicking on. He took pictures of some rare moments.

It was one of the most memorable incident of my life. I had immense pleasure for the presence of my friends and relatives.

### **Composition-8:**

Write a short composition on 'Slow but steady wins the race ' answering the following questions:

#What does it mean?

# How is it helpful for studies?

# Why did the tortoise win the race?

#Conclusion

It is rightly said that slow but steady wins the race. It means that regular work pays in the end. Success comes to those who are slow but steady in their work. Regularity, punctuality and steadiness brings success.

It is not necessary to be very clever in order to succeed in life. For example ,a clever but lazy student who works only now and then and never is regular at his studies, might fail in his exam. His failure is due to the fact that he did not work slowly and steadily.

The truth of the proverb is illustrated by the story of the hare and the tortoise. The hare challenged the tortoise into a race. He was sure he would succeed because he could run much faster. He ran ahead but the tortoise was left far behind. So the hare decided to rest and have a nap. The tortoise went slowly and steadily on. The hare woke up after his nap. He found that the tortoise was very near the goal. He leapt forward but it was of no use. The tortoise had won the race as it had moved slowly and steadily.

Nothing is gained by being hasty and careless. It is better to be slow and careful in one's work. Those who do things hastily sometimes make many mistakes. Haste makes waste. To conclude we might say that what one needs to succeed is the ability to work hard and do one's work with patience and perseverance. Only regular and punctual work brings success in life.

## **Composition-7:**

Write a short composition on 'A Tourist Spot of Bangladesh' / 'Your visit to the Saint Martin's Island' answering the following points:

# Introduction

# Where did you go to visit?

# How and when did you go there?

# Description of the tourist spot.

# How did you enjoy?

A tourist spot is a place of interest where tourists visit. There are numbers of tourist attractions in Bangladesh. They are scattered across the country. Saint Martin's Island is one of the very popular tourist spots in Bangladesh.

During the last summer vacation my parents and I went on a visit to the Saint Martin's Island. First we travelled from Dhaka to Teknaf by bus. Then we rode a ship to Saint Martine's Island. The vision of the island and the sea cast a spell over me.

St. Martin's Island is a small island in the Bay of Bengal which is generally known as Narikel Jingira. It is surrounded by huge black stone. It is the only coral island of Bangladesh. The total area of this island is only 14 km. The crystal clean water and unpolluted nature play the vital role to attract the tourists. Different types of sea fishes and various types of giant crabs can be found here. This island is specially attracted for the different types of sea turtles also. The brilliant sunrise and beautiful sunset has no match anywhere in the world.

One may have visited many places of tourist interest. But the visit to the Saint Martin's Island must have a lasting impression on his mind. Really it was such a wonderful place which is really impossible to describe. It is the most beautiful place I have ever seen.

## Composition-6:

Write a short composition on 'Your Home Town' answering the following questions:

#Introduction	#location
#Important places	#Educational Institutions
# Famous people	#Conclusion

Our Hometown is where our roots lie, that is where our ancestors were born. We all love our hometown. I feel proud because Dhaka is my hometown.

Dhaka city was formerly known as Dacca. It is an old historical city. It is the capital of Bangladesh and located at the centre of Bangladesh. Dhaka stands on the northern bank of the river Burigonga. It is the suburbs 16 km. long and 12 km. broad. More than 1 crore people live in the city.

There are lots of places to see in the city. The major spots are Lalbagh Kella, National Parliament, National Memorial in Savar, Shishu park, Supreme Court etc. There are two large stadiums in each of which 70 thousand people can witness games. Shahjalal International Airport gives a new importance to this very capital city, Dhaka. Dhaka is a Muslim city and known as the 'City of Mosque', but people of almost every religion live here together.

Dhaka is the greatest centre of education in Bangladesh. The University of Dhaka, the Medical Colleges, the Engineering University, colleges, schools, Madras are the important educational institutions.

Dhaka has produced a number of well-known physicist, political leaders, educators, actors and several other personalities from other spheres. Some famous people from my home district are-Shamsur Rahman, Taskin Ahmed, Sabina Yeasmin, Mohammad Ashraful etc.

I am very proud of being a part of such a city where I spent most of my early childhood. There are lots of reasons behind I love this amazing city. There are lots of problems like traffic jam, over population and pollution, but after all, we are a happy city living with peace.

## Composition-5:

Write a short composition on 'The job of a Firefighter ' answering the following questions:

- # What is a firefighter?
- # A job of diverse responsibilities
- # Education and training
- # Qualities of a firefighter
- # Importance of work
- # Conclusion

A firefighter, also known as fireman is an important figure of the society. He is a highly skilled man or woman who works to combat and extinguish fires. But a fireman's job is not just what we are used to seeing on TV. The job of a fire fighter is a challenging, risky and exceptional one.

Firefighters are primarily responsible for responding to fires, accidents and other incidents where risks are posed to life and property. Besides this they also act as emergency medical technicians and investigates the causes of fires.

A firefighter usually requires a minimum education up to HSC level. Then he needs a core training on firefighting. The training period is practical and very important.

A firefighter should be physically fit, brave and careful. He should be a quick learner and prompt in taking decision at the time of action. His life would be dedicated to the safety of other's life and property. The work is a very risky one and the profession deserves high respect.

The job of a firefighter is a physically and mentally challenging occupation. It requires constant attention and dedication. Considering their great service to our society, we should think about their rights. Not only that, most of the responsible citizens of a country should have firefighting training so that we can help each other in case of emergency.

## Practise:

Make Wh- questions from the given statements (By using Who, What, When, Where, Why, Which and How). Make questions with the underlined words:

- a. I'm going to Chattogram.  
Ans: Where are you going?
- b. I'm from the United Kingdoms.  
Ans: Where are you from?
- c. Our train is leaving in ten minutes.  
Ans: When is your train leaving?
- d. Jessica is from Dhaka.  
Ans: Who is from Dhaka ?
- e. They are in the Town Hall Language Club.  
Ans: Where are they?
- f. They come to the club to practice speaking English.  
Ans: Why do they come to the club?
- g. They watch DVDs in English.  
Ans: What do they watch?
- h. The new person is a young man.  
Ans: Who is a young man?

## Practise:

Make Wh- questions from the given statements (By using Who, What, When, Where, Why, Which and How). Make questions with the underlined words:

- a. I met him yesterday .  
Ans: When did you meet him?
- b. I met him yesterday at the bookshop.  
Ans: Where did you meet him yesterday?
- c. He is working with an NGO here.  
Ans: What is he working with?

d. I'm going to the book fair.

Ans: Where are you going?

e. I can meet you in an hour.

Ans: When can you meet me?

f. I'll see you at the book fair.

Ans: Where will you see me?

g. This is Tamal.

Ans: Who is this?

h. She is a new English teacher here.

Ans: Who is she? / What is she?

i. Saikat lives with his parents.

Ans: Who lives with his parents?

j. His father is a banker.

Ans: What is his father?

k. In his free time Mr. Islam writes stories and listens to music.

Ans: When does Mr. Islam write stories and listen to music?

l. In her free time she enjoys sewing.

Ans: What does she do in her free time?

m. She makes dresses.

Ans: What does she do?

### **Practise:**

Make Wh- questions from the given statements (By using Who, What, When, Where, Why, Which and How). Make questions with the underlined words:

a. I am Sima.

Ans: Who are you?

b. I like to walk in the park.

Ans: What do you like to do?

c. I like to walk in the park.

Ans: Where do you like to walk?

d. I like to walk in the park.

Ans: Who likes to walk in the park?

a. My cousin lives in the U.K.

Ans: Where does your cousin live?

f. My cousin lives in the U.K.

Ans: Who lives in the U.K?

g. I talk to her and her friends on the Internet.

Ans: How do you talk to her and her friends?

h. I talk to her and her friends on the internet

Ans: Who talks to her and her friends on the internet?

i. Talking on the internet keeps you connected.

Ans: What keeps me connected?

j. Swimming keeps me fit.

Ans: What keeps you fit ?

k. Painting makes me happy.

Ans: What makes you happy??

l. I often read magazines in my free time..

Ans: What do you often do in your free time?

m. I like magazines about sports.

Ans: What kind of magazines do you like ?

## **Subject: Elementary Science**

### **Home Work#**

#### **Chapter : 9**

- 1 . Knowledge of science is essential for proper use of technology.
2. Science is the knowledge/study about natural world.
3. Technology is the practical application of science.
4. Scientists use a microscope to investigate the objects that cannot be seen with naked eyes.

5. The main source of the new technology is necessity.
6. The aim of technology is to control environment and solve problems.
7. Science and technology have different purpose.
8. Biotechnology is a way to make plants with special qualities.
9. The industrial revolution was happened in 18th century.
10. The technology of clock contributed to be punctual.

## **Chapter:10**

- 1.The internet enables us to collect information more easily.
2. Information sharing is an activity through which information is exchanged among friends family members and other people.
